

EVOLUTION

AESTHETICS IN MOTION

Uniline has complimented its flagship blackout, Dawn, with another classic fabric – Evolution. New to the range, Evolution combines the functionality of a blackout with the aesthetic appeal of a soft, lightly textured fabric. In a range of 17 contemporary colours, we are confident that there is a colour choice to suit your needs. All colours have a universal white back which will help keep the heat out in summer and the warmth in during winter. For dual systems, why not match Evolution with Uniview Interior Screen to get the best of worlds.

EVOLUTION FEATURES INCLUDE:

- **A 5 Year Fabric Warranty!**
- **Greenguard Gold Certification** ensures that Evolution has a low level of chemical emissions which significantly improves the quality of the air.
- **Ultra-Fresh antimicrobial additives** control the growth of unwanted microbes and guarantees continuous odour control and fabric protection against mould, mildew and stain causing bacteria.
- **The Uniguard fabric protection system** improves the durability of our fabrics by making them easier to maintain and clean.
- **Oeko-Tex accreditation** ensures that there are no harmful substances used during the manufacturing process.
- **3 metre width.**
