Protéger Pivot Awning

by Uniline

UNILINE'S STORY.

A Proud Tradition

Established 50 years ago, Uniline has long been synonymous with providing high quality systems, components and fabrics for the wholesale and retail markets, with a large number of our products proudly Australian designed and manufactured. Our head office is located in Queensland, Australia and we also boast an extensive sales and warehousing network throughout Australia and New Zealand, giving us the power to distribute to a national customer base.

Uniline proudly offers the highest levels of innovation, quality and service in everything we do. This is why we endorse every one of our products with the coveted Uniline warranty.

Uniline's Head Office
Yatala, Queensland

Peerless Manufacturing Standard

Over the decades, we have gained a reputation for our impeccable production and service ethic. With production facilities in Australia and New Zealand we manufacture many of our system components and fabric collections.

Each is stringently tested so it can leave the factory bearing our industry leading warranty.

Innovation Excellence

We strive to be leaders in our industry, and to be the best in everything we do, from the products we produce or acquire to the systems and processes we adopt.

WHERE CAN AWNING AND SHUTTER SYSTEMS BE INSTALLED?

The location of awning and shutter systems is the key factor in selecting the style and model of your awning or shutter. Uniline's wide variety means that we have the perfect solution for every location.

When you are choosing a specific awning or shutter the most important factors to consider are its functionality and how the system can be adapted to the requirements of its location and users.

Options include

- Balconies and terraces.
- Windows.
- Patios and pergolas.
- Sliding doors and entrances.
- Pool areas.

Things to Consider

There are several things to consider when choosing the right kind of awning or shutter system for any location:

- The orientation of the sun and how much shade you require.

- The awnings projection when fully opened - this varies and is determined by which system you choose.
- The colour and finishes on your awning. Uniline has an extensive colour range that will compliment the awning's surrounds.
- Choose an awning that can fit your dimensions perfectly to be most effective.
- The weight of the awning is also important, so always ensure you are going to mount it where it does not exceed the load-bearing capacity of the wall.
- Accessibility, including height, especially in high traffic areas.

PROTÉGER PIVOT AWNING.

So you want all-day shade without blocking natural light and breezes? It's yours with the Protéger Pivot Arm Awning System from Uniline.

As part of Uniline's constant innovation program, we are pleased to announce a new addition to the Protéger range of products. Introducing the Protéger Pivot Awning, this adds a new dimension to the Protéger range. No longer is Protéger limited to just shading vertically, it can shade horizontally too.

Uniline have taken the solid performing Archline system, added some significant new functionality and hardware, to bring it to the level of our premium Protéger range. The most obvious change is the new front rail, designed to perform both horizontally and vertically. Add to that heavy-duty flexible joints, which perfectly compliment the front rail, and make it easier to adjust when using the sliding rail system. All of this matched perfectly with the stylish Protéger hooding system.

THE CHOICE IS YOURS

Protéger Pivot Awning

- Caters for widths up to 4.2m, and can project out to 1.5m.
- Tough enough to withstand the elements thanks to its powder-coated cast aluminium body, and boasts a 3.2mm diameter spring with a stainless steel cable for greater strength and stability.

Designed to deflect heat and glare while maximising light, ventilation and privacy within the home.

Protéger Pivot Awnings fits most windows and projects to various lengths. Backed by Uniline's five-year components warranty, both systems come with manual or motorised operation.

The ultimate in 21st century convenience, the motorised system comes with wind and sun sensors that automatically adjust the awning according to weather conditions. No need to rush home if it's blowing a gale – the system will close the awning for you.

CHOOSE YOUR CONFIGURATION IN 3 EASY TO FOLLOW STEPS.

STEP 1

SELECT WIDTH KIT

Measure the window opening width. The awning should extend at least 100mm past the window opening on each side. This will give the most efficient shading. EG Opening size 1800mm = Awning 2100mm Width Kit.

STEP 2

SELECT PROJECTION KIT

Measure either the window opening drop, or the distance from the top of the window to the ground. When fully opened, the awning will effectively cover twice the ordered projection. EG Projection Kit 1200mm will cover up to 2400mm in drop.

STEP 3

SELECT SKIN AND TUBE

Select from either Uniview Outdoor, or one of the many colours in the Recasens Canvas range, or simply make your own skin.

UNIVIEW 5% EXTERIOR SCREEN FABRIC.

Uniview Outdoor is a heavy duty awning fabric that helps secure your privacy in contemporary fashion that is perfect for external windows and screening off pool and alfresco entertaining areas.

Offering unparalleled sun and glare protection, fantastic outward visibility and just enough inward light filtration, whilst offering privacy. Uniview Outdoor comes in a palette of contemporary colours, carefully selected to match or contrast with external walls and fences.

Shades range from light natural tones of sandstone and pebble to the industrially-inspired hues of ebony and slate grey. The 3000mm width offers a range of popular colours catering to wider widths, and the heavier yarn construction provides greater strength and dimensional stability.

Uniline Australia "Uniline" warrants that its window covering materials (fabrics) will be free from defects in materials and workmanship for the stated periods from the date of purchase. For more information please go to the Uniline website.

NICE FOR YOU AUTOMATION.

Nice is a major international brand in the home automation market.

Nice designs, produces and markets advanced automation systems for blinds and awnings, for both the residential and commercial sectors.

Nice continues to improve our quality of life by simplifying everyday movements, combining technological innovation and design to offer exceptional ease of use. Uniline now offers a Nice motor that is compatible with our unique channel locks. Simply set the bottom limits and the motor does the work for you. Just press down then the motor will lock and self tension. Press up and the motor automatically adjusts down past the lock and then raises the blind up.

UNILINE GENERAL WARRANTY DOCUMENT.

Uniline Australia "Uniline" warrants that its window covering materials (fabrics) and components listed below will be free from defects in materials and workmanship for the stated periods from the date of purchase, subject to the provisions of this warranty, provided they were purchased after 1st January 2014 and were:

1. Supplied by Uniline Australia.
2. Manufactured by an accredited Uniline Manufacturer.
3. Sold by an accredited Uniline Reseller.
4. Professionally installed by an accredited Uniline Installer and according to Uniline installation standard procedures.
5. The entire system supplied to the consumer is a Uniline system and not parts thereof.

This warranty is limited to the repair or replacement of the defective materials and components. Repairs will be made with like or similar parts. Uniline reserves the right to discharge its obligations under this warranty by refunding the original purchase price of the defective materials or components.

Uniline reserve the right to separate the warranty, into the following four (4) categories:

1. * Hardware Component Systems – (5 Years) - A Uniline window furnishing will be made up of a number of hardware components, known as a system. Uniline reserves the right to refuse any warranty if parts of the system are not made up of genuine Uniline components.
2. Uniline Window Covering Materials (Fabrics) – (5 to 10 Years) - Uniline will warrant any window covering material which is manufactured or supplied by Uniline Australia limited for the stated warranty period.
3. Uniline accredited Motorisation – (5 Years) - Uniline will warrant any gearing mechanism or motorisation mechanism which has been supplied, tested and accredited by Uniline. These include:
 - a. Geiger gearboxes
 - b. NICE Motors

If a consumer chooses to select only part of the Uniline system, eg: a Uniline Cassia Rollbox System, but chooses another supplier's fabric, Uniline will warrant the Uniline part of the system under the standard warranty conditions of that particular part.

This Warranty Excludes:

Any condition or damage relating to, or resulting from, accidents, alterations, discoloration or fading over time, misuse, abuse, normal wear and tear, removal and/or reinstallation, failure to follow the installation or use instructions of Uniline, or force majeure including, without limitation, storm, fire, floods, cyclone's, standing water, explosions, earthquakes, vandalism, riots, acts of war, pollutants, acts of God or other occurrences beyond the control of Uniline. Installations subject to salt spray or marine influences, severe industrial or corrosive environments or internal situations subject to moisture laden air.

Shipping charges and costs for removing, disassembling, reassembling and reinstalling the materials or components.

Special Conditions

* 100% Uniline supplied components includes tubes, gearboxes, drive adapters, motor adapters, idle ends, pivot plate and pins, splines and any other specific components that are sold by Uniline.

All methods, allowances and specifications must follow the information provided in the manufacturing and installations guides as provided by Uniline.

All sizes and installations must fall within the guidelines provided by the product specification document.

Failure to adhere to any of the above clauses will result in the voiding of all warranties.

Interpretation

This warranty shall be interpreted and applied subject to the operation of any statute applicable in Australia, the terms of which cannot be excluded by the parties, including (if applicable) relevant provisions of the Trade Practices Amendment (Australian Consumer Law) Act (No. 1) 2010 and similar State legislation. With the exception of the matters outlined in this document, all other implied terms, warranties, conditions and consequences are excluded.

Warranty Claims

Warranty claims must be made as soon as possible after discovery of the defect and, in any event, within the warranty period. Warranty claims must be accompanied by proof of payment of the full purchase price by the original purchaser.

Warranty Process

Contact the place of purchase or take the product back to the place of purchase. The place of purchase must be an accredited Uniline supplier.

Proof of purchase (a copy of the tax receipt detailing the date of the purchase, the product purchased & the place of purchase) from an accredited Uniline reseller is required for all warranty claims.

All accredited Uniline resellers can be viewed on the Uniline website.

Uniline Australia "Uniline" warrants that its window covering materials (fabrics) will be free from defects in materials and workmanship for the stated periods from the date of purchase. For more information please go the Uniline website.
