

TYPHOON

SIDE CHANNEL
EXTERNAL AWNINGS

TYPHOON SIDE CHANNEL AWNINGS.

The Typhoon Side Channel awning is ideal for residential applications or small commercial jobs. It features multiple stopping points allowing better light and glare control.

The Typhoon Side Channel awning has a very neat streamlined appearance with no exposed cords, cleats or visible wires. Spring operated, with an easy twist lock operation making it very simple to use and quiet to operate. The side channels are non intrusive, made from aluminium and come powder coated. This system is manual operation only.

THE CHOICE IS YOURS

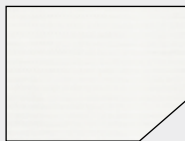

- Can be mounted onto the wall surrounding the window (face fit) or set inside the window reveal.
- Typhoon Side Channel Awnings come in a variety of powder-coated shades to colour-match to your building exterior.
- Multiple “stopping points” allow for better control of light and glare.
