Glissade™

Panel Glide System

Ultra modern and aesthetically stunning, the award winning Glissade™ Panel Glide System by Uniline, is a patented system of sliding fabric panels that can be fitted to sliding doors or windows.

Panels can be either face fit or taken right up to ceiling height, well above the sliding door or window, for a fabulous ceiling-to-floor fabric drop that creates the illusion of much higher ceilings.

FEATURES & BENEFITS

- Australian Design Award Finalist
- Engineered for smooth and low noise operation
- Minimal track spacing reducing light penetration
- Various choice of panel widths
- Can be fitted as a window furnishing or room divider
- Combine Blockout + Light filtered fabrics for day/night functionality
- Optimal length 5.8m
- 5 year components warranty

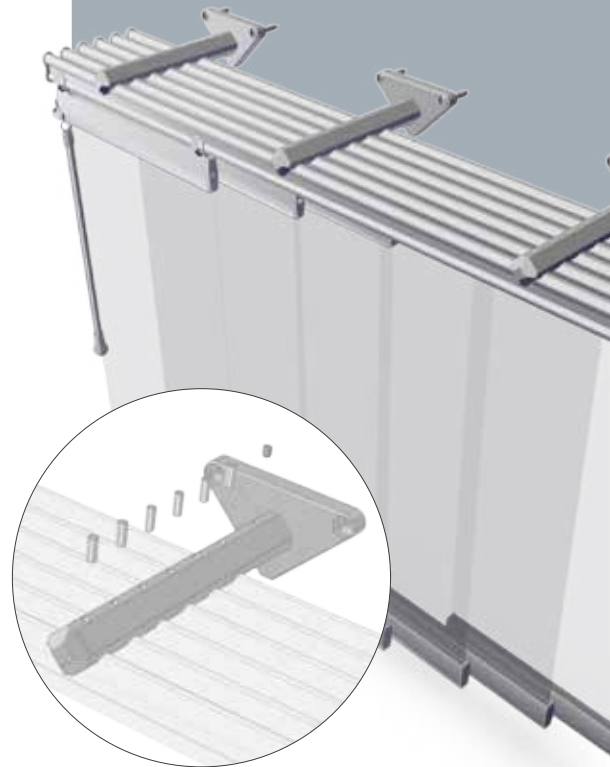

BEAUTY AND BRAINS

More reasons to love Glissade™
